2020-2021 Technology Enhanced Arts Learning Project (TEAL)

The goal of TEAL is to increase students' access to the arts by expanding K-6 teachers' capacity to provide culturally relevant, integrated arts instruction which centers on Social Emotional Learning (SEL), for all students. TEAL provides interactive, experiential professional development focused on integrating the arts and SEL into the teaching of cross-curricular subjects. Strengthened by virtual learning assets, technical support, and customized virtual coaching, TEAL helps teachers build the knowledge and skills to embed the arts into classroom curriculum, while improving both academic and social-emotional outcomes for students.
